

WOODWIND MAINTENANCE

NEEDED SUPPLIES

- Key Oil
- Cork Grease ★
- Small Screwdriver (flat-head)
- Polishing Cloth ★
- Microfiber Cloth
- Mouthpiece Brush
- Cotton Swab

★ Typically included in a cleaning kit

OTHER TIPS

You should have an repair technician check your instrument. A repair technician can check key heights, springs, and replace pads (as needed).

DAILY

- Swab
- Wipe moisture from reeds and store flat

WEEKLY

- Clean Mouthpiece with brush
- Apply cork grease (as needed)
- Wipe instrument. Use microfiber cloth to wipe fingerprints, then use the polishing cloth on metal keys

MONTHLY

- Clean key holes (cotton swab)
- Clean your case (inside and out)
