The test is 90 minutes, however, students may have up until half of a school day to complete each session.

Students must stay for the first 90 minutes, even if finished. Students may return to class once they are finished and the required 90 minutes is up.

Students requesting to continue working until the half day point will be escorted to the Bldg 10 Lab with O'Farrell until 12:10.

Cornelius and Diaz have 100% extended time, so if needed, they have until the end of the school day. Nace is ELL, so she has until the end of the school day, as well, if needed.

Students cannot have calculators on day 1, only on day 2.

The script for session 1 and 2 is in the big blue FSA manual.
