

RBSMS AVID Happenings

August 2019

A Great Start

The AVID Elective students have been learning about Collaboration, Binder Organization, and Focused Notes. Starting Tuesday, Sept. 3rd we will begin tutorials every Tuesday and Thursday as well.

If you have never seen the AVID Elective in action, we invite you to come down check it out any time!

AVID WICOR Strategies

During this semester, we will be looking at Costa's Higher Levels of Thinking. Here is a quick way to help your students remember the three levels:

Level 1 – Point to the Answer

Level 2 – Use your book and mind

Level 3 – Use what you learned and use it in the world.

Be sure to check out the *AVID Critical Thinking & Engagement* book found on the SharePoint under AVID Resources for more information!

Using WICOR??

The AVID Site Team is looking for teachers and students who sparkle using WICOR strategies to highlight in our monthly WICOR Spotlight. We are looking for all areas of WICOR, especially Collaboration and Inquiry. Our team will help with the photos, but we need your insights. If you would be willing to allow us to share what you are doing in your classes, email Amanda Hawk or Tori Hammond.

AVIDtude Kudos

Open Doors

Thank you to everyone who has participated in an AVID WICOR observation. We have been able to document collaborate groupings, learning goals reflection, a little marking the text and even some Focused Notes so far... All extremely engaging!

Remember you can always submit student work to a Site Team member or via email to Amanda Hawk. We want to see you Sparkle!
